

VACANCY ANNOUNCEMENT

The **Health Policy Initiative (HPI)** at Indian Council for Research on International Economic Relations (ICRIER), New Delhi has two research programs at the moment:

1. Drug Regulatory Reforms in India
2. Tackling Chronic Diseases in India

Under the former, we are presently working on: a) Clinical trials and new drug approvals, b) Harmonization of certification standards. Under the latter, we are presently working on: a) Towards a chronic disease prevention-oriented primary health system, b) Strategies for surveillance of chronic diseases.*

HPI is inviting applications for the following positions under both research programs:

A) Research Assistants / Associates

Minimum eligibility: Postgraduate degree in economics / health-related field, with written work on the broad / specific themes mentioned above.

B) Fellows / Consultants

Minimum eligibility: PhD in economics / health-related field, with a well-published record on the broad / specific themes mentioned above.

High-quality writing capability (English) would be indispensable. Applicants should be able to conduct conceptually rigorous literature review to identify problem areas and potential solutions. Candidates with prior experience in conducting and analyzing expert interviews would be preferred.

Candidates who fulfil these conditions should email their CV and cover letter, highlighting their suitability, at vwattal@icrier.res.in, latest by 22nd November 2015 (Sunday).

Only shortlisted candidates shall be contacted with interview dates. Selected candidates should be willing to join ICRIER latest by mid-December 2015.

* For more information on the Initiative, kindly visit: www.icrier-health.org.
